

AILING WOMEN OF MIDDLE AGE

Mrs. Linton Tells How Helpful
Lydia E. Pinkham's Vegetable
Compound is at This Period

Denver, Colorado.—"I have taken Lydia E. Pinkham's Vegetable Compound for seven years and I cannot tell you the good it has done for me. It is good for young and old and I always keep a bottle of it in the house, for I am at that time of life when it calls for Lydia E. Pinkham's help. My husband saw your ad. in the papers and said 'You have taken everything you can think of, now I want you to take Lydia E. Pinkham's Vegetable Compound.' So I let him get it, and I soon felt better and he told me 'I want you to take about six bottles.' So I did and I keep house and do all my own work and work out by the day and feel fine now. I tell every one about the Vegetable Compound, for so many of my friends thought I would not get well."—Mrs. R. J. LINTON, 1850 West 33d Avenue, Denver, Colorado.

After reading letters like the above, and we are constantly publishing them, why should any woman hesitate to take Lydia E. Pinkham's Vegetable Compound if she is in need of help? It brings relief where other medicines fail.

In Crinoline bright,
She greeted her guests
By Coal Oil light.

And later on,
How time does pass
Her home was lit

But the girl of to-day
Who wants her home bright,
Just presses a button

To Direct The 50 Professional Models at Louisville Style Show

MISS JOSEPHINE LEHR

Louisville's 1932 Style Show and Exposition, which will be held in the Armory in that city March 31st to April 8th, promises to be the most elaborate style revue ever held in the South. RULER OF TIBET IS HARD WORKER

Britons Find Chief Toils More
Than English and American
Business Man.

PUTS IN 20 HOURS EVERY DAY

Ponders Religious and State Affairs
in Veritable Wonderland of Flow-
ers, Birds and Wild Animals—
Climate is Cold.

London.—The Dalai Lama of Tibet, the religious and secular head of that secluded country, has to work harder than the average British or American business man. He gets up at four o'clock in the morning and labors until midnight, notwithstanding the fact that he is unquestionably the "big boss."

Sir Charles Bell, a British political officer in India, who has just returned after a year's residence in the romantic "forbidden city" of Lhasa, the Tibetan capital, says the Dalai Lama is one of the few Europeans who have mastered the Tibetan language and this helped him to become friendly with the head of all Tibet.

"He paid me the honor of inviting me into the forbidden inclosure of his country palace," said Sir Charles.

Climate is Cold.

"This was a little wonderland of flowers, birds and wild animals—a hidden retreat where he gives deep thought both to his religious and state affairs. Hundreds of canaries were singing here, and there were also stags, pheasants and a great tiger from Bengal."

"The climate was intensely cold when Sir Charles arrived, and for days the temperature indoors never rose above freezing point. In the place of window glass Tibetans used a sort of wax cloth. It lets the wind in, but they are a hardy race and do not appear to feel the discomfort of the cold."

"Mutton, yak beef and pork are the staple diet," Sir Charles went on. "Tibetans do not like either chicken or eggs. They do not sleep on beds, but on the floor, on which are placed large downy cushions. You lie on top of these and fold them over you. They are very comfortable and warm."

Heavy Garments Worn.

"There is an official date for winter to begin and end, and the fur hat and other warm garments ordained for officials are invariably worn without regard to weather conditions between those dates. However comfortable the official may be with the fur hat April 25 or without it after that date, he would never dream of departing from the sartorial convention in public for five minutes. The etiquette of the people is very elaborate and strict."

"There are, practically speaking, no police, no firemen, and no wheeled traffic in Lhasa. If a man suffers from toothache, he goes with a few friends onto the flat roof of his house. His friends bring a big stone, around which they fasten a string. The string is then tied to the bad tooth, and the stone dropped over the rooftop. Two or three friends hold onto the patient to prevent him from going over, too."

WOMAN CAPTURES A WILDCAT

Beast Scratches Her Somewhat, but
She is Going to Raise it
for a Pet.

Lead, S. D.—Mrs. Myra K. Peters, manager of the Sylvan Lake hotel at Sylvan lake, was the heroine of an exciting incident recently.

During her stay at the lake this winter, Mrs. Peters made friends with a small wildcat, and it became so friendly that it would eat out of her hand and even sit in her lap while eating.

The wildcat would come every morning for its morning meal, and Mrs. Peters became quite attached to it. While she was feeding it in her lap one morning she threw a robe over it and put it in a safe place to keep it. While doing so she was considerably scratched trying to hold it, but she now has the animal in captivity, and is going to tame and raise it for a pet.

Small Baby.

Nebraska City, Neb.—A son weighing 18 ounces was born to Mr. and Mrs. R. H. Clark at Rogers hospital here. The child is normal and well formed and has a good chance to grow to mature manhood, physicians say. He is being cared for in a baby incubator.

Unearth Vases of Metal Age in Spain

Madrid.—A description of the recent discovery of archeological treasures near Granada is given by Simon Martin Delval. He asserts Archeologist Cable, the official inspector of the expedition, found a priceless collection of instruments and vases, running back to the commencement of the metal age. In addition to jewelry of various kinds, Mr. Cable discovered an artificial mound containing vestiges of peculiar rites, which it is thought will open a new line of archeological research.
